LogCheck pricing for Purchase and Maintenance and Support has not increased since January 2013 and so it has unfortunately become necessary to slightly increase our prices.

The current pricing schedule for LogCheck as from 1st January 2018 is:

Rental

	First Copy at Site (ex GST)	First Copy at Site (inc GST)	Additional Copies at Site. (ex GST)	Additional Copies at Site (inc GST)
Monthly hire	$800	$880	$200	$220

All hire copies include the geotech, graphical editor and coal quality modules.

Purchase

	First Copy at Site (ex GST)	First Copy at Site (inc GST)	Additional Copies at Site (ex GST)	Additional Copies at Site (inc GST)
Basic System	$8000	$8800	$2000	$2200
GeoTech Module	$1200	$1320	$300	$330
Graphical Editor	$2400	$2640	$600	$660
Coal Quality Module	$3000	$3300	$750	$825

As can be seen above, there is a 75% discount for additional copies at a site as subsequent copies at a site only marginally increase the amount of support and training we need to provide to a site. We define a site as a location where there is a permanent office being used for data collection, thus a temporary office like a user's hotel room is not considered a separate site. This can be useful for expanded exploration programs of limited duration.

Once the first copy has been purchased for a site, you can hire additional copies at $200 per month plus GST (or $220 including GST). This can be useful for expanded exploration programs of limited duration.

Purchase price includes initial setup of client's data format, installation and training, though, the cost of our staff's travel and accommodation may need to be covered by the client. There is no maintenance and support charge for the first year. After that there is a maintenance and support charge equivalent to 15% of the current purchase price. The current charges are:

Maintenance and Support per annum

	First Copy at Site (ex GST)	First Copy at Site (inc GST)	Additional Copies at Site (ex GST)	Additional Copies at Site (inc GST)
Basic System	$1200	$1320	$300	$330
GeoTech Module	$180	$198	$45	$49.50
Graphical Editor	$360	$396	$90	$99
Coal Quality Module	$450	$495	$112.50	$123.75

This charge covers the following services:
- supply of at least one update of LogCheck per year. These will include any new features since the last update as well as any bug fixes,
- at least one site visit a year. Cost of our staff's travel to site and accommodation at site may need to be covered by the client,
- all training
- telephone and email support to assist in use of LogCheck (including supply of lost coding sheets, dictionaries etc) or reinstalling it on new computers,
- telephone and email support for the fixing of bugs,
- minor modifications and data fixes taking one hour or less.

We provide a discount of 50% of your rental payments off your purchase price. Please call us if you would like to know your current cumulative rental discount off the purchase price.

Data processing and modifications of the software including data format changes are charged at our officework consulting rates of:

Rate Category	Excluding GST	Including GST
Hourly	$250	$275
Standard Daily	$1600	$1760
Long Term Daily	$1400	$1540

Our officework daily rates are for an eight-hour work day. The long term daily rate applies to each day where the client hires GeoCheck personnel for more than ten days over two months.

If you have any questions regarding the above rates, please contact me on the above telephone numbers or email address.

Regards

Brett Larkin
Senior Geocomputing Consultant
